Ensea

DJM-3400

Professional 4-Channel DJ Mixer

Features:

- Professional 4 channels super-low noise DJ mixer.
- Intelligent auto-BPM counter.
- Super-smooth ULTRAGLIDE faders with up to 500,000 life cycles
- VCA fader engines for utmost reliability and smooth audio performance.
- Dedicated curve control for all faders.
- Professional crossfader reverse switch.
- Awesome adjustable XPQ stereo surround effect.
- 2-band kill EQ(-20dB), gain and balance control per channel.
- PFL function with CH-1/CH-2 balance control.
- Precise master/cue level meter with peak hold function.
- More user friendly take-over and headphone monitor function.

Specifications:

1. Audio inputs

- Microphone: 40dB Gain, electronically balanced input stage
- Phono 1 and 2: 40dB Gain, unbalanced inputs
- Line 1 and 2: 0dB Gain, unbalanced inputs
- Return: 0dB Gain, unbalanced input

2. Audio outputs

- Master: Max. +19dB/+10dB(Line in)
- Tape: Typ. 0dB
- Send: Typ. 0dB
- Phones: Max. +180mW/75Ω / 1% THD

3. Equalizer

- Stereo low: +10dB/-20dB/50Hz
- Stereo mid: +10dB/-20dB/1.2KHz
- Stereo high: +10dB/-20dB/10KHz
- Microphone low: +10dB/-10dB/50Hz
- Microphone mid: +10dB/-10dB/1.2KHz
- Microphone high: +10dB/-10dB/10KHz

4. General

- S/N Ratio: >87dB (Line)
- Crosstalk: >60dB (Line)
- Distortion(THD): <0.7%
- Frequency response: 10Hz-30KHz+1/-3dB

5. Power supply

- Mains voltages: 230V±10% 50Hz/60Hz (115V±10% 50Hz/60Hz)
- Power consumption: 15W
- Fuse: F250mA 250V (F500mA 250V)

6. Other

- Measurement: 480×200×115mm
- Weight: 3.5kg
- Packing list: 4pcs/carton
- Meas. : 545×530×365mm
